- I. Approve Minutes to May 10th meeting: Approved with amendments provided Bob.
- II. Treasurer's Report – (Catherine): Catherine gave the Treasurer's Report. Report was received and filed for audit.
- III. Maintenance Manager's Report—Bob
 - a. Window Latches: Right side installed. Still need to install the one on the left.
 - b. CHT Heating: CHT is still in excess of 430° on cylinders 3 and 4 during shallow 85 kts. We will continue to consider modifications.
 - c. Strobe Light: Hoskins strobe is out. Bob bought a Universal Strobe from Aircraft Spruce.
 - d. Oil Leak: Oil cooler seam was leaking and was repaired by the California Oil Coolers.
 - e. Fuel Valve under cowling needs to be repositioned.
 - f. Seat Stops: Bob & Dennis took plane to Corporate Air for installation of the Seat Stop beneath the pilot seat. We still need to be reimbursed by Cessna.
 - g. Pitot-Static System was recertified by Corporate Air.
 - h. Transponder Certification: Transponder was sent to Jeff for repair and recertification. He will try to repair our very old transponder, but no promises. We will have Jeff find a reconditioned one for around \$700. A new one is \$1,900. Jeff will be up over the July 4th weekend. Motion made to put a \$200 surcharge on the July billing to active members.
 - i. Top Radio Frequency Lights Dimming: New radio has been sent back to Jeff for repair.
